MONEY, STOCKS AND GRAIN

Wall-Street Bears Hilarious Over the Big Drop in Silver Certificates.

The Entire Share List Hammered Down, and the Closing Was Weak-At Indianapolis Trade in Cereals More Active.

THE BOND MARKET.

Railway and Miscellaneous Issues Weak on Sales of Only \$729,000. At New York yesterday money on call was active, ranging from 4 to 35 per cent. the last loan being made at 4, closing offered at 4 per cent.

Prime mercantile paper, 6@8 per cent. Sterling exchange was heavy, with actual business in bankers' bills at \$4.801/2 @4.81 for sixty days and \$4.82% @4.83 for demand. The New York stock market was feverish

and unsettled throughout the day. There were one or two sharp rallies, but they failed to hold and at the close quotations were only s fraction above the lowest. The bears were far more aggressive than of late in consequence of the stringency in money, which hold operations for the loan account in check. The brokers are indisposed to advise purchases so long as they see trouble accommodations at bank. The big silver certificates operated in favor of lower markets for securities and the conflicting statements concerning the affairs of the Reading caused more or less unessiness. The decline was equal to 42 334 per cent. American Sugar fell 345, to 67; Missouri Pacific, 348 to 3038; Manhattan, 234 to 1244; Great Northern preferred, 3 to 110; Michigan Central, 3 to 94; St. Paul, 24 to 66; Chicago Gas. 2 to 66; Quincy, 178 to 8478; Big Four, 142 to 39; Rock Island, 134 to 6978; Lackawanna, 144 to 14634; Delaware & Hudson, 142 to 120; Louisville & Nashville, 142 to 6442; Lead, preferred, 2 to 68; National Starch, 24 to 8; St. Paul & Omaha. 24 to 37; Union Pacific, 14 to 25%, and Western Union, 1 to 8142. Cordage preferred sold at 4042 against 53, the last

previously reported sale. Late in the day the rate for money dropped from 35 and 40 to 15 per cent., under offerings by the foreign bankers, and the stock market rallied to 14 per cent, but the improvement was short lived, and speculation left off irregular and in the main weak, despite a decline on call loans to 4 per cent., and a drop in sterling exchange to figures which, if continued, must lead to a renewal of the import movement of gold.

The railway and miscellaneous bond mar-ket was weak and lower. Dealings were light in volume, amounting to only \$729,-00. Government bonds steady and State onds dull. Closing quotations were:

Four per cent. reg.109 | Lous. & Nash..... 65 Four per ct. coup..110 | L. & New Albany.. 15% Pacific 6's of '95..103 | Missouri Pacific... 30% Bar Silver-At New York, 77c per ounce;

LOCAL GRAIN AND PRODUCE.

The Week Opened with an Active Trade and an Easier Tone to Prices. On the wholesale streets yesterday there

was a good deal of activity. Dry-goods houses were busy, grocers had a brisk trade, and all along the line more trade was in progress than last week. Coffees and sugars are both easier, but not quotably lower. East they were reported weak and declining slightly. Old Irish potatoes were gropped from the list yesterday and the market is glutted with new potatoes. Prices are off 50c per barrel. Cabbage is in large supply and prices a shade lower. Lemons are scarce and firm; oranges in light supply and but few wanted. Receipts of new apples are light and prices 22@28c; harness, 26@38c; akirting. 31@33c; firm for good stock. Cherries. plums, etc., single strap, 41c; black bridle, \$\overline{\psi}\ \doz, \\$60@ berries are practically off the market. The wool market drags at unchanged prices. The provision market is active, prices

The local grain market opened tame, and all cereals, oats excepted, ruled easier than on Saturday. Wheat, No. 2 red, went off 4c, and several grades of corn declined bec, while all grades of oats were a shade higher. Track bids ruled, yesterday, as Wheat-No. 2 red, 60c; No. 3 red, 55c;

STRONGER TONE TO GRAIN

Crop Damage More Potent to Lift Prices Than Tight Money to Drag Down.

Wheat and Corn Both Opened Stronger Than Saturday's Closing Figures, the Former Making a Gain of 13sc and Corn of 134c.

TRADING AT CHICAGO.

Heavy Receipts of Hogs Helped Depress the Price of Pork 60c.

CHICAGO, June 26.-Crop damage to spring wheat rose superior to-day to 35 per cent. money in New York and ademoralized silver market. There was a strong tone to all the Board of Trade markets at the close. Compared with Saturday night wheat 18 up 1 se and corn 14c. In wheat the opening was about 'se higher than Saturday's closing, and with a tew fluctuations prices were advanced 1 @1 %c, then eased off slightly and the closing was about 1%c higher for July and 1%c higher for September than the closing tigures Saturday. The big decrease in quantity of wheat and flour on ocean passage, together with smaller ludia shipments and the big decrease in the visible supply, all helped to bring about the advance. It was also noticed that there was some disposition to buy July wheat and sell for September, and the general tendency and drift of the market induced shorts to cover. There were reports of hot winds in the Northwest doing damage to the crops, and in some parts the spring wheat crop was reported as looking very bad. The tight money market in the East, the break there in stocks and a reported failure in Minneapolis seemed to have lit-

tie or no effect. Corn opened strong at about the final quotations of Saturday and under good demand, some of which was for outside account, and with limited offerings it gradually worked up & @le, the action of wheat helping the advance. The local crowd bought freely, but at 42%0 some of the larger concerns commenced to sell and room operators being long also sold in turn. ket afterward ruled steadier and at the close had gained & @ 4c. There was very little news received that was in any way influential and prices were governed large-

ly by the action of local traders. There was a moderate trade in oats with prices following wheat and corn. Prices covered a the range and advanced 12 @ 40 over Saturday's closing figures, but re-acted 3 @ 120 and finished with a gain of

The receipts of hogs were 38,000 head instead of 25,000 estimated on Saturday. As a result provisions were weak, but toward the close the bull clique bid for some lard and ribs, which caused the most of the early .1212 to .15c loss to be recovered. Closing quotations show losses of 60c in July and 45c in September and the carrying charge is back again to \$1 per barrel. Estimated receipts for to-morrow are: Wheat, 175 cars; corn. 885 cars; oats, 575 cars; hogs, 19,000. Lake business was slow at 14c for wheat and 13c for corn to Buffalo. The leading futures ranged as

mand and higher at \$3.50@6.65. Home Dressmaking. New York Leager.

There is another point on which amateurs make great mistakes, and, indeed, professionals as well, and that is in the basting of skirts. They put in a stitch here and a pin there, lay the edges together in another place and pull them to make them even somewhere else. It is one of the oldest of dressmaking axioms that "a dress-waist well basted is half made," and if this rule works on waists it certainly is doubly important on the present-day skirt. In basting outside and lining together, which should be most accurately and carefully done, put the straight edge of the outside, which should be cut first, to the straight edge of the lining. Pin these edges accurately, then smooth and press with the bands until the entire section is exactly on the same grain as the lining, baste the straight edges with running stitches, three or four in a place, these stitches being not over three-eighths of an inch long; then make the next row of stitches not over three inches from the last. When the straight edges are basted, pin the top in place and baste that, then cut off the lining and pin the bias edge from belt to hem and baste like the rest, being careful that no wrinkles or stretchings

work. This looks like a great deal of bother in preparing a skirt to put together, the outside, baste the sections, which are all to be done in the same way; begin at the top and sew with a moderately heavy thread either a quarter of an inch from the edge or three-fourths of an inch; the former is better if the stiches are fine enough. Then, when the seam is put into the machine, there is little danger of dragging it out of shape and finding that the outside and lining are drawn apart or one is shoved some distance beyond the other. When the seams are sewed, put the skirt on and adjust the belt, plaiting in or gathering to fit the figure; then sew on the belt, put on again and turn up the hem of the skirt, putting in pins until it is absolutely correct in length. A thread basted along at the fold to mark the proper length of the skirt is a great advantage in trimming off; then put on facing and braid, if one is used; and it is almost certain that the skirt will hang gracefully and be a credit to the builder.

There are any number of models, charts and instructions for fitting waists, but in many cases the home dressmaker seems to think that a skirt is comfortably easy to do and needs no such adirections. This accounts for the fact that there are so many ungraceful and ill-hanging skirts to be seen even on our most fashionable promenades.
